

DOANE-COLLINS ENGINEERING ASSOCIATES, LLC is a Civil Engineering and Land Surveying Firm, located in Centerbrook, Connecticut. The staff at Doane-Collins Engineering has worked in the lower Connecticut River Valley for over 30 years providing services for residential, commercial, industrial and municipal development. The Principals are Robert L. Doane, Jr., P.E., L.S. and Darcey R. Collins, P.E..

Robert L. Doane, Jr. has been a lifetime resident of the lower Connecticut River Valley and has worked for Land Surveying and Civil Engineering firms in the area since 1965. Mr. Doane received a Bachelor of Science Degree in Civil Engineering from the University of Vermont in 1974, became licensed as a Civil Engineer in the State of Connecticut and the State of Vermont in 1980 and became licensed as a Land Surveyor in the State of Connecticut in 1982. Becoming a business owner and partner in 1982, he has since been directly responsible for the evaluation of sites for subsurface sewage disposal, site grading, stormwater management, property line surveys, construction management and survey support, as well as preparation of contract documents, plans and applications. He has been involved in presentation of projects to various local, state and federal agencies including public hearing presentations.

Mr. Doane has been the consulting engineer for the Town of Essex since 1982. Mr. Doane has served on the Connecticut State Board of Examiners for Professional Engineers and Land Surveyors as a member with combined licenses as a professional engineer and land surveyor since 1998.

Darcey R. Collins received a Bachelor of Science Degree in Civil Engineering from the University of Connecticut in 1986 and became licensed as a Professional Engineer in the State of Connecticut in 1992. Ms. Collins worked for Doane Engineering Company (formerly Radcliffe Engineering Company) from February 1987 to October 1998, at which time she became a partner with Robert L. Doane, Jr.. She has been directly responsible for the design of subsurface sewage disposal systems, site development, stormwater management, hydraulics and hydrology, construction management along with the preparation of contract documents and applications. Ms. Collins has extensive experience in solutions to problems associated with subsurface disposal along the beach communities in Old Saybrook and Westbrook. This experience has included many years of working with Town Health Departments productively. She regularly presents projects to various Town Commissions and State Agencies.

Ms Collins resides in Westbrook Connecticut. She has served on the Westbrook Inland Wetlands and Watercourses Commission and is currently a member of the Water Pollution Control Commission.
