D. “Smithland Supply” Application for Certificate of Zoning Compliance for Signs
923 Boston Post Road, Map 29/Lot 4 Shopping Center Business B-2 District

Tracy Becker, representing Smithland Supply, explained the proposed signage. The company is rebranding and changing their signage with new logo and increasing the size of 'Agway'. The size of the signs stay the same, both wall mounted and monument sign. The proposed wall sign is wood grain vinyl with acrylic lettering, 1/2” painted lettering. On the monument sign the panel would be swapped out for a new panel, with black background and white 1/2” acrylic painted letters.

Members agreed that the white background of the wall sign was not in keeping with ARB guidelines. E. Grochowski explained that it was not long ago that the current signage was approved through a special exception and great care was taken at that time to arrive at the final design. She stated that the proposed sign would not have passed approval had it been proposed during that special exception application. She stated that the white grain background is not in keeping with what the special exception approvals were, and does not find it an improvement on the appearance. Members agreed that the sign with black background is more legible. A. Laferriere also noted that given the depth of the parking lot it would be easier to see the white letters against a dark background. D. Leake commented about having too many colors on one sign, and questioned whether the monument sign has too many colors.

T. Rupp suggested charcoal gray for a background color for the wall sign, as black may be jarring and the white is stark. Members agreed with the suggestion of charcoal gray background.

E. Grochowski discussed the condition of the wood beams above the roof, how it has weathered in comparison to the wood frames below the porch area. She asked that the applicant forward her comments to Smithland Supply to ask that they address the appearance of the building, in particular the wood beams above the porch.
