 - B.** Discussion and possible action on multiple resolutions relating to HVAC improvements to the Goodwin and Middle School.
Mr. Fortuna explained that he recently met with Superintendent Perruccio and the Director of Operations, Julie Pendleton to discuss applying for state grants to assist with the cost of HVAC improvements to the Goodwin and Middle School. There is a very tight deadline of December 1st to apply and depending on whether we are successful, other town actions may need to occur for funding. Ms. Pendleton explained that the funds are in place for the Goodwin School but we can still ask for reimbursement for a portion of the funding that was used (ESSER funds to be excluded). The Middle School project is a bit more complex and expensive but applying for the grant is the prudent move to offset the cost. Ms. Pendleton stated that the town's match from the state is usually about 25%. We are applying for these grants because this work is going to have to be done eventually and it is important that the town maximize its funding and funding sources. Therefore:
