

Transit Study Completed

A Lower Connecticut River Valley (**LCRV**) **Transit Study** has been completed by RiverCOG, 9 Town Transit, Middletown Area Transit (MAT), and the Connecticut Department of Transportation (CTDOT).

Study Recommends that 9 Town and MAT:

- Improve bus **maintenance** capabilities in Middletown
- Construct a new Shoreline **operations** facility
- Merge administrative and maintenance functions to make more **efficient** use of limited resources

Potential Service Improvements:

The study has identified a range of potential future changes that could be implemented if funding were to become available. Ideas include:

- Longer **evening** hours and more **weekend** service
- Modified route alignments to make service **faster** and more **direct**
- Potential introduction of **new services**
