

ELEVATION REFERENCE MARKS		
REFERENCE MARK	ELEVATION IN FT. (NGVD) ¹	DESCRIPTION OF LOCATION
RM 1	19.98	U.S. Coast and Geodetic Survey disk stamped No. 6 1958 set on top of southeast corner of the first pin sign at west end of Baldwin (Interstate 95) Bridge over Connecticut River.
RM 2	26.53	U.S. Coast and Geodetic Survey disk stamped ELV26 588 ft. G.S. 1922 set on south end of west abutment of the CON RAIL bridge over Connecticut River.
RM 3	42.74	U.S. Coast and Geodetic Survey bronze disk stamped 546 set in top of a concrete post 2 inches below ground on southwest side of Connecticut Route 9A, 0.1 mile south of Old Saybrook and Essex town line, 12.8 feet north of utility pole No. 848 and 3.0 feet northeast of a 0.5-inch drill hole in a 2 foot by 2 foot boulder.

*EXPLANATION OF ZONE DESIGNATIONS	
ZONE	EXPLANATION
A	Areas of 100-year flood; base flood elevations flood hazard factors not determined.
A0	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
AH	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1/A30	Areas of 100-year flood; base flood elevations and flood hazard factors determined.
A99	Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood (Medium shading)
C	Areas of minimal flooding (No shading)
D	Areas of undetermined, but possible, flood hazards
V	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1/V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

Certain areas not in the special flood hazard areas (zones A and V) may be protected by flood control structures.

This map is for flood insurance and flood plain management purposes only; it does not necessarily show all areas subject to flooding in the community or all planimetric features outside special flood hazard areas. The coastal flooding elevations shown may differ significantly from those developed by the National Weather Service for hurricane evacuation planning.

For adjoining map panels, see separately printed Index To Map Panels.

Coastal base flood elevations shown on this map include the effect of wave action.

Coastal base flood elevations apply only landward of the shoreline shown on this map.
