Engineer M. Ott presented photometric plans, outlining the building-mounted cylinder lights that emit light on the building face and the pole-mounted lighting. Chairman Grochowski pointed out an error with the placement of one of the pole lights, questioned light trespass figures stated on plans and whether the building lights meet the regulations. A. Laferriere was concerned about light spillage onto the road. Resident L.D. Mitchell stated, “There are 20 lights in back and side of building glaring all around.” M. Ott will check into whether any lights in the vacant apartments were left on overnights that could be turned off. Board member T. Rupp was concerned about the light trespass as well. She stated that, “We’re responsible to the town to make sure this is done the right way.”

Chairman Grochowski motioned to continue to the next ARB meeting on August 8, 2022 so applicant can bring back a revised photometric plan that shows:

- correct locations of all fixtures
- reduction of light trespass onto neighboring properties to what is allowable
- fixture specifications showing that the up/down building sconces meet the regulations, including for full cut off

MOTION to continue “Hanford Commons” Application for Site Plan Review for Affordable Housing (CGS 8-30g) Lynde Street, Map 36/Lots 87-89, Residence A District, Pedestrian Node to the next regular scheduled meeting on August 8, 2022 at 7 p.m. MADE: E. C. “Stop & Shop” Preliminary Discussion of Façade Renovation 665 Boston Post Rd, Map 36/Lot 103, Shopping Center Business B-2 District, Coastal Area Management Zone, Pedestrian Node
   Applicant: Stop & Shop Supermarkets Agent: N. Nitschke, AIA

N. Nitschke presented a façade renovation that includes Nichiha panels and composite wood trellises. The color scheme will be light and dark gray. The signage will remain. The applicant would like to square off the corners of the slope of roof that is giving it a “barn” look. E. Grochowski was concerned that it would be increasing the non-compliance of the roofline/articulation. The Board agreed the new design would be an improvement but the members requested that the applicant consider additional façade details to create a more welcoming elevation that conform to our Regulations. Lights will be added but that information wasn’t available at the meeting. The planters in the middle brick section will be eliminated. J. Galli suggested adding seating in place of the planters. E. Grochowski instructed the applicant to leave material and color samples on file so that members do not rely on printouts when a formal application is made with lighting plan and dimensions of the new trellises.
