SECTION 19 Effective Date of Regulations............................................ 19-1
SECTION 1
Title and Authority

(a) Aquifers are an essential natural resource and a major source of public drinking water for the State of Connecticut. Use of groundwater will increase as the population grows and opportunities for new surface water supplies diminish due to the rising cost of land and increasingly intense development. At the same time, numerous drinking water wells have been contaminated by certain land use activities, and others are now threatened. To address this problem, Connecticut has established the Aquifer Protection Area Program (Connecticut General Statutes §22a-354a to §22a-354bb) to identify critical water supply aquifers and to protect them from pollution by managing land use. Protection requires coordinated responsibilities shared by the state, municipality and water companies to ensure a plentiful supply of public drinking water for present and future generations. It is therefore the purpose of these regulations to protect aquifer protection areas within the Town of Old Saybrook by making provisions for:

1. Implementing regulations consistent with state regulations and An Act Concerning Aquifer Protection Areas, Conn. Gen. Stat. §22a-354a to §22a-354bb (the “Act”).

2. Delineating aquifer protection areas on the Town zoning or inland wetland and watercourse areas maps.

3. Regulating land use activity within the aquifer protection area including: prohibiting certain new activities; registering existing regulated activities; and issuing permits for new regulated activities at registered facilities.

4. Administering and enforcing these regulations.

(b) These regulations shall be known as the Aquifer Protection Area Regulations of the Town of Old Saybrook.

(c) These Regulations were adopted and may be amended, from time to time, in accordance with the provisions of §22a-354p of An Act Concerning Aquifer Protection Areas, the Connecticut General Statutes §22a-354a to §22a-354bb and the Regulations of Connecticut State Agencies §22a-354i-1 through §22a-354i-10.

(d) The Inland Wetlands and Watercourses Commission of the Town of Old Saybrook was established as the Aquifer Protection Agency in accordance with the “Ordinance for the Establishment of an Aquifer Protection Agency,” (the “APA Ordinance”) effective 3/7/11, and shall implement the purposes and provisions of the APA Ordinance and the Act.

(e) The Agency will administer all provisions of the Act and will approve or deny registrations, issue permits with terms, conditions, limitations or modifications, or deny permits for all regulated activities in aquifer protection areas in the Town of Old Saybrook pursuant to the Act.
SECTION 2
Definitions

(a) As used in these regulations, the following definitions apply:

Affected water company means “affected water company” as defined in § 22a-354(h) of the Connecticut General Statutes.

Agency means the board or commission authorized by the municipality under §22a-354(o) of the Connecticut General Statutes.

Agriculture means “agriculture” as defined in § 1-1(q) of the Connecticut General Statutes. Presently, § 1-1(q) defines “agriculture” as including “cultivation of the soil, dairying, forestry, raising or harvesting any agricultural or horticultural commodity, including the raising, shearing, feeding, caring for, training and management of livestock, including horses, bees, poultry, fur-bearing animals and wildlife, and the raising or harvesting of oysters, clams, mussels, other molluscan shellfish or fish; the operation, management, conservation, improvement or maintenance of a farm and its buildings, tools and equipment, or salvaging timber or cleared land of brush or other debris left by a storm, as an incident to the farming operations; the production or harvesting of maple syrup or maple sugar, or any agricultural commodity, including lumber, as an incident to ordinary farming operations or the harvesting of mushrooms, the hatching of poultry, or the construction, operation or maintenance of ditches, canals, reservoirs or waterways used exclusively for farming purposes; handling, planting, drying, packing, packaging, processing, freezing, grading, storing or delivering to storage or to market, or to a carrier for transportation to market, or for direct sale, any agricultural or horticultural commodity as an incident to ordinary farming operations, or, in the case of fruits and vegetables, as an incident to the preparation of the fruits or vegetables for market or for direct sale.

Applicant means as appropriate in context, a person who applies for an exemption under §22a-354i-6 of the Regulations of Connecticut State Agencies, a permit under §22a-354i-8 of the Regulations of Connecticut State Agencies or a permit under section 9 of the APA regulations.

Application means, as appropriate in context, an application for an exemption under §22a354i of the Regulations of Connecticut State Agencies, an application for a permit under §22a-354i-8 of the Regulations of Connecticut State Agencies or an application for a permit under section 9 of the APA regulations these Regulations.

Aquifer protection area means “aquifer protection area” as defined in §22a-354h of the Connecticut General Statutes and any extension of the area approved by the Commissioner pursuant to §22a-354i-4 of the Regulations of Connecticut State Agencies. Presently, § 22a354h defines “aquifer protection area” means “any area consisting of well fields, areas of contribution and recharge areas, identified on maps approved by the commissioner of environmental...
Definitions

protection pursuant to sections 22a-354b to 22a-354d, inclusive, within which land uses or activities will be required to comply with regulations adopted pursuant to sections 22a-354o by the municipality where the aquifer protection area is located.”

Area of contribution means “area of contribution” as defined in §22a-354h of the Connecticut General Statutes and as mapped in accordance with §22a-354b-l of the Regulations of Connecticut State Agencies. Presently § 22a-354h defines “area of contribution” as “the area where the water table or other potentiometric surface is lowered due to the pumping of a well and groundwater flows directly to the well.”

Bulk storage facility means property where oil or petroleum liquids are received by tank vessel, pipeline, railroad car, or tank vehicle for the purpose of storage for wholesale distribution.

Certified Hazardous Materials Manager means a hazardous materials manager certified by the Institute of Hazardous Materials Management and who is qualified by reason of relevant specialized training and relevant specialized experience to conduct audits of regulated activities to ensure compliance with applicable laws and identify appropriate pollution prevention practices for the activities.

Commissioner means the commissioner of environmental protection, or his or her agent.

De-Icing chemical means sodium chloride, calcium chloride, or calcium magnesium acetate.

Domestic sewage means “domestic sewage” as defined in §22a-430-3(a) the Regulations of Connecticut State Agencies. Presently, § 22a-430-3(a) defines “domestic sewage” as “sewage that consists of water and human excretions or other waterborne wastes incidental to the occupancy of residential buildings or non-residential buildings but not including manufacturing process water, cooling water, wastewater from water softening equipment, commercial laundry wastewater, blowdown from heating or cooling equipment, water from cellar or floor drains or surface water from roofs, paved surfaces or yard drains.”

Facility means property where a regulated activity is conducted by any person, including without limitation any buildings located on the property that are owned or leased by that person, and includes contiguous land owned, leased, or for which there is an option to purchase by that person.

Facility Owner means the owner or lessee of the facility in question.

Floor drain means any opening in a floor or surface which opening or surface receives materials spilled or deposited thereon.

Hazardous material means (A) any hazardous substance as defined in 40 CFR 302.4 and listed therein at Table 302.4, excluding mixtures with a total concentration of less than 1% hazardous substances based on volume, (B) any hazardous waste as defined in §22a-449(c)-1 01 of the Regulations of Connecticut State Agencies, (C) any pesticide as defined in §22a-47 of the
Connecticut General Statutes, or (D) any oil or petroleum as defined in §22a-448 of the Connecticut General Statutes.

**Hazardous waste** means “hazardous waste” as defined in §22a-449(c)-101 of the Regulations of Connecticut State Agencies. Presently section 22a-449(c)-101 of the Regulations of Connecticut State Agencies defines hazardous wastes as follows: Hazardous waste means a solid, liquid or gaseous waste that meets one of the following conditions: (1) Is listed in Subpart D of 40 CFR 261; (2) Exhibits a characteristic defined in Subpart C of 40 CFR part 261 that include ignitability, corrosivity, reactivity and toxicity; (3) Is a mixture containing a listed hazardous waste and a non-hazardous solid waste; (4) Is derived from storage, treatment or disposal of a hazardous waste (For example: leachate is derived from disposal); (5) Is not excluded from regulation as a hazardous waste (Exclusions are limited and include very specific wastes treated in specific ways. For example: wastewater treatment plant sludges generated from electroplating operations and stored in on-site land fill).

**Industrial laundry** means a facility for washing clothes, cloth, or other fabric used in industrial operations.

**Infiltration device** means any discharge device installed below or above the ground surface that is designed to discharge liquid to the ground.

**Inland wetland and watercourse areas map** means a map pursuant to §22a-42a of the Connecticut General Statutes;

**ISO 14001 environmental management system certification** means a current ISO 14001 environmental management system certification issued by an ISO 14001 environmental management system registrar that is accredited by the American National Standards Institute - American Society for Quality National Accreditation Board (ANSI-ASQ ANAB).

**Level A mapping** means the lines as shown on Level A maps approved or prepared by the Commissioner pursuant to §22a-354c, §22a-354d or §22a-354z of the Connecticut General Statutes encompassing the area of contribution and recharge areas.

**Lubricating oil** means oil that contains less than 1% chlorinated solvents and is used for the sole purpose of lubricating, cutting, grinding, machining, stamping, or quenching metals.

**Municipality** means “municipality” as defined in §22a-354h of the Connecticut General Statutes. Presently § 22a-354h defines “municipality” as “any town, consolidated town and city, consolidated town and borough, city or borough”.

**Owner** means the owner or the lessee of the facility in question.

**Person** means any individual, firm, partnership, association, syndicate, company, trust, corporation, limited liability company, municipality, agency, political or administrative subdivision of the state, or other legal entity of any kind.
Definitions

Pollution means “pollution” as defined in §22a-423 of the Connecticut General Statutes. Presently, § 22a-423 defines “pollution” as “harmful thermal effect or the contamination or rendering unclean or impure of any waters of the state by reason of any waste or other materials discharged or deposited therein by any public or private sewer or otherwise so directly or indirectly to come in contact with any waters. This includes, but is not limited to, erosion and sedimentation resulting from any filling, land clearing or excavation activity.”

Pollution prevention means the use of processes and materials so as to reduce or minimize the amount of hazardous materials used or the quantity and concentration of pollutants in waste generated.

Professional engineer (aquifer) means a professional engineer licensed in accordance with Chapter 391 of the Connecticut General Statutes, and who is qualified by reason of relevant specialized training and relevant specialized experience to conduct audits of regulated aquifer activities to ensure compliance with applicable law and identify appropriate pollution prevention practices for the activities.

Publicly Owned Treatment Works means “publicly owned treatment works” as defined in §22a-430-3 of the Regulations of Connecticut State Agencies. Presently, § 22a-430-3 defines “publicly owned treatment works” as “a system used for the collection, treatment, and/or disposal of sewage from more than one lot as defined in section 22a-430-1 of the Regulations of the Connecticut State Agencies and which discharges to the waters of the state and which is owned by a municipality or the state.”

Public service company means “public service company” as defined in §16-1 of the Connecticut General Statutes. Presently, § 16-1 defines “public service company” as including “electric, electric distribution, gas, telephone, telegraph, pipeline, sewage, water and community antenna television companies, owning, leasing, maintaining, operating, managing or controlling plants or parts of plants or equipment, and all express companies having special privileges on railroads within this state, but will not include telegraph company functions concerning intrastate money order service, towns, cities, boroughs, any municipal corporation or department thereof, whether separately incorporated or not, a private power producer, as defined in section 16-243b, or an exempt wholesale generator, as defined in 15 USC 79z-5a.”

Public supply well means “public supply well” as defined in §19-13-B51b of the Regulations of Connecticut State Agencies. Presently, § 19-13-B51b defines “public supply well” as “a water supply well used or made available by a water company to two or more consumers”.

Recharge area means “recharge area” as defined in §22a-354h of the Connecticut General Statutes and as mapped in accordance with §22a-354b-1 of the Regulations of Connecticut State Agencies. Presently, § 22a-354h defines “recharge area” as the area from which groundwater flows directly to the area of contribution”.

Registered regulated activity means a regulated activity which has been registered under §22a-354i-7 of the Regulations of Connecticut State Agencies or Section 8 of the APA Regulations, and is conducted at the facility identified in such registration;
Definitions

**Registrant** means a person, who or which, has submitted a registration for an existing regulated activity under §22a-354i-7 of the Regulations of Connecticut State Agencies or these Regulations.

**Regulated aquifer activity** means any of the following activities, which are located or conducted, wholly or partially, in an aquifer protection area, except as provided for in §22a-354i-5(c) and §22a-354i-6 of the Regulations of Connecticut State Agencies, or these Regulations:

(A) Underground storage or transmission of oil or petroleum, to the extent the activity is not pre-empted by federal law, or hazardous material, except for (a) an underground storage tank that contains number two (2) fuel oil and is located more than five hundred feet (500') from a public supply well subject to regulation under §22a-354c or §22a-354z of the Connecticut General Statutes, or (b) underground electrical facilities such as transformers, breakers, or cables containing oil for cooling or insulation purposes which are owned and operated by a public service company.

(B) Oil or petroleum dispensing for the purpose of retail, wholesale or fleet use.

(C) On-site storage of hazardous materials for the purpose of wholesale sale.

(D) Repair or maintenance of vehicles or internal combustion engines of vehicles involving the use, storage or disposal of hazardous materials, including solvents, lubricants, paints, brake fluids, transmission fluids or the generation of hazardous wastes.

(E) Salvage operations of metal or vehicle parts.

(F) Wastewater discharges to ground water other than domestic sewage and stormwater, except discharges from the following that have received a permit from the Commissioner pursuant to section 22a-430 of the Connecticut General Statutes: (i) a pump and treat system for ground water remediation, (ii) a potable water treatment system, (iii) a heat pump system; (iv) a non-contact cooling water system, or (v) a swimming pool.

(G) Car or truck washing, unless all wastewaters from the activity are lawfully disposed of through a connection to a publicly owned treatment works.

(H) Production or refining of chemicals, including without limitation hazardous materials or asphalt.

(I) Clothes or cloth cleaning service that involves the use, storage, or disposal of hazardous materials including without limitation dry-cleaning solvents.

(J) Industrial laundry activity that involves the cleaning of clothes or cloth contaminated by hazardous material, unless all wastewaters from the activity are lawfully disposed of through a connection to a publicly owned treatment works.
Definitions

(K) Generation of electrical power by means of fossil fuels, except for (a) generation of electrical power by an emergency engine as defined by §§ 22a-174-22(a)(2) and (3) of the Regulations of Connecticut State Agencies, or (b) generation of electrical power by means of natural gas or propane.

(L) Production of electronic boards, electrical components, or other electrical equipment involving the use, storage or disposal of any hazardous material or involving metal plating, degreasing of parts or equipment, or etching operations.

(M) Embalming or crematory services that involve the use, storage, or disposal of hazardous material, unless all wastewaters from the activity are lawfully disposed of through a connection to a publicly owned treatment works.

(N) Furniture stripping operations that involve the use, storage, or disposal of hazardous materials.

(O) Furniture finishing operations that involve the use, storage or disposal of hazardous materials, unless all waste waters from the activity are lawfully disposed of through a connection to a publicly owned treatment works.

(P) Storage, treatment or disposal of hazardous waste subject to a permit under §22a449(c)-100 to §22a-449(c)-110, inclusive, of the Regulations of Connecticut State Agencies.

(Q) Biological or chemical testing, analysis or research which involves the use, storage or disposal of hazardous material, unless all waste waters from the activity are lawfully disposed of through a connection to a publicly owned treatment works, and provided that on-site testing of a public supply well by a public water utility is not a regulated activity.

(R) Pest control services that involve storage, mixing or loading of pesticides or other hazardous materials.

(S) Photographic finishing that involves the use, storage, or disposal of hazardous materials, unless all wastewater from the activity are lawfully disposed of through a connection to a publicly owned treatment works.

(T) Production or fabrication of metal products that involves the use, storage, or disposal of hazardous materials is including (a) metal cleaning or degreasing with industrial solvents, (b) metal plating, or (c) metal etching.

(U) Printing, plate making, lithography, photoengraving, or gravure, which involves the use, storage, or disposal of hazardous materials.

(V) Accumulation or storage of waste oil, anti-freeze or spent lead-acid batteries which are subject to a general permit issued under §22a-208(i) and §22a-454(e)(l) of the Connecticut General Statutes. (Facilities subject to a general permit include transfer...
stations, landfills, household hazardous waste collection sites, and certain recycling facilities.)

(W) Production of rubber, resin cements, elastomers or plastic, which involves the use, storage, or disposal of hazardous materials.

(X) Storage of de-icing chemicals, unless the storage takes place within a weather tight waterproof structure for the purpose of retail sale or for deciding parking areas or access roads to parking areas.

(Y) Accumulation, storage, handling, recycling, disposal, reduction, processing, burning, transfer or composting of solid waste which is subject to a permit issued by the Commissioner pursuant to §22a-207b, §22a-208a, and §22a-208c of the Connecticut General Statute, except for a potable water treatment sludge disposal area.

(Z) Dying, coating or printing of textiles, or tanning or finishing of leather, which activity involves the use, storage, or disposal of hazardous materials.

(AA) Production of wood veneer, plywood, reconstituted wood, or pressure-treated wood, which involves the use, storage, or disposal of hazardous material.

(BB) Pulp production processes that involve bleaching.

**Release** means “release” as defined in §22a-133k-1 of the Regulations of Connecticut State Agencies. Presently, § 22a-133k-1 defines “release” as “any discharge, spillage, uncontrolled loss, seepage, filtration, leakage, injection, escape, dumping, pumping, pouring, emitting, emptying, or disposal of a substance”.

**State aquifer protection regulations** means §22a-354i-1 to §22a-354i-10, inclusive, of the Regulations of Connecticut State Agencies;

**Storage of hazardous materials** means the holding or possession of any hazardous material.

**Storage tank** means a stationary device that is designed to store hazardous materials, and is constructed of non-earthen materials including without limitation concrete, steel, fiberglass or plastic.

**Topographic feature** means an object, whether natural or man-made, located on the earth surface and of sufficient size that it appears on a 1:24,000 scale topographic quadrangle map drawn by the United States Geological Survey.

**Underground** when referring to a storage tank or storage tank component means that ten percent or more of the volumetric capacity of the tank or component is below the surface of the ground and that portion which is below the surface of the ground is not fully visible for inspection.
Definitions

**Vehicle** or **vehicles** means a “vessel” as defined by §15-170 of the Connecticut General Statutes, and any vehicle propelled or drawn by any non-muscular power, including without limitation an automobile, aircraft, all-terrain vehicle or snowmobile. Presently, §15-170 defines "vessel" as “every description of watercraft, other than a seaplane on water, used or capable of being used as a means of transportation on water”.

**Waters** means “waters” as defined in §22a-423 of the Connecticut General Statutes. Presently, § 22a-423 defines "waters" as “all tidal waters, harbors, estuaries, rivers, brooks, watercourses, waterways, wells, springs, lakes, ponds, marshes, drainage systems and all other surface or underground streams, bodies or accumulations of water, natural or artificial, public or private, which are contained within, flow through or border upon this state or any portion thereof”.

**Well field** means “well field” as defined in §22a-354h of the Connecticut General Statutes. Presently, §22a-354h defines “well field” as “the immediate area surrounding a public drinking water supply well or group of wells.”

**Zoning map** means any map showing zones or districts prepared in accordance with maps adopted pursuant to §8-3 of the Connecticut General Statutes.
SECTION 3

Delineation of Aquifer Protection Area

(a) The boundaries the aquifer protection areas are delineated on the Town of Old Saybrook Zoning Map. The delineation will consist of the combined areas of contribution and recharge areas as shown on Level A maps approved or prepared by the Commissioner.

(1) The boundaries will be delineated within one hundred twenty (120) days after being notified by the Commissioner that an aquifer protection area is located partially or entirely within the Town of Old Saybrook.

(2) Notice of the delineation will be published in a newspaper having substantial circulation in the affected area. The notice will include at least the following:

(A) A map or detailed description of the subject aquifer protection area.

(B) The name, telephone number, and work address of the Aquifer Protection Agent, who may be contacted for further information.

(b) In order to clarify the location of an aquifer protection area boundary, the Agency may apply to the Commissioner to extend the boundary to coincide with the nearest property line, municipal boundary or topographic feature pursuant to §22a-354i-4 of the Regulations of Connecticut State Agencies. The extension will, at a minimum, fully encompass the aquifer protection areas bounded by the approved level A mapping but will not exceed the distance necessary to clarify the location of the aquifer protection area or to facilitate the administration of regulations pertaining thereto. An aquifer protection area boundary may not be extended without prior written approval of the Commissioner.

(1) Any request by the Agency to the Commissioner for extension of an aquifer protection area boundary will include at least the following:

(A) A map to scale delineating (i) the aquifer protection area boundary mapped under these Regulations and (ii) the proposed extension of the aquifer protection area boundary.

(B) A certification by the chairperson or duly authorized agent of the Agency that notice of the request has been provided to all owners of property within the proposed extended aquifer protection area and all affected water companies in accordance with the following:

(i) The notice will include at least the following:

(aa) A map showing the aquifer protection area boundaries and the proposed extension of the boundaries,
(bb) The name, work address, and telephone number of the Aquifer Agent.

(cc) A statement that any person may, no later than thirty (30) days after said notification, submit to the Agency written comments on the proposed boundary extension.

(ii) The notice will be effectuated by the following:

(aa) Delivery of notice by certified mail to those individuals and entities identified in this section, or

(bb) The publication of a notice in a newspaper having substantial circulation in the affected area; and posting of notice near the proposed boundaries of the subject aquifer, protection area of at least four signs each of which will be at least four square feet (4 s.f.) in size (i.e. 2' x 2').

(C) A summary of comments received by the Agency regarding the proposed boundary extension and the Commissions response.

(2) No later than sixty (60) days after receiving the Commissioners written approval of a request to extend an aquifer protection area boundary, the Agency will cause the boundary to be delineated in accordance with this section.

(c) No person may challenge the boundaries of the aquifer protection area under these Regulations unless the challenge is based solely on a failure by the Agency to properly delineate the boundaries in accordance with §22a-354n of the Connecticut General Statutes.

(d) A map of the location and boundaries of the aquifer protection areas, or regulated areas, will be available for inspection in the Office of the Town Clerk or the Agency.

(e) If the Level A mapping is amended in accordance with §22a-354b-i(i) or §22a-354b-1(j) of the Regulations of Connecticut State Agencies, the Agency will cause the amended aquifer protection area boundary to be delineated in accordance with these Regulations.
SECTION 4
Prohibited & Regulated Activities

(a) All regulated aquifer activities are prohibited in aquifer protection areas, except as specified in subsection (b) of this section.

(b) The following regulated activities are not prohibited in aquifer protection areas:

(1) A registered regulated activity which is conducted in compliance with §22a-354i-9 of the Regulations of Connecticut State Agencies or these Regulations.

(2) A regulated activity which has received a permit issued pursuant to §22a-354i-8 of the Regulations of Connecticut State Agencies or these Regulations.

(3) A regulated activity which is on any municipally owned site undergoing remedial action pursuant to 40 CFR 271 at the time the applicable aquifer protection area is designated on a municipal zoning map or inland wetlands map, provided:

(A) No such-regulated activity substantially commenced or was in active operation for the five (5) year period preceding the date that the applicable aquifer protection area is designated on a municipal zoning map or inland wetlands map; and

(B) Any person who engages in the regulated activity within the ten (10) year period commencing on the date that the applicable aquifer protection area is designated on a municipal zoning map or inland wetland map registers the regulated activity on a form prescribed by the Commissioner of Environmental Protection and in accordance with the provisions of § 22a354i-7 of the Regulations of Connecticut State Agencies.

(c) The following are not regulated aquifer activities:

(1) Any activity conducted at a residence without compensation.

(2) Any activity involving the use or storage of no more than two and one-half (2.5) gallons of each type of hazardous material on-site at any one time, provided the total of all hazardous materials on-site does not exceed fifty-five (55) gallons at any one time.

(3) Any agricultural activity regulated pursuant to §22a-354m(d) of the Connecticut General Statutes.

(4) Any activity provided all the following conditions are satisfied:
(A) Such activity takes place solely within an enclosed building in an area with an impermeable floor.

(B) Such activity involves no more than 10% of the floor area in the building where the activity takes place.

(C) Any hazardous material used in connection with the activity is stored in the building at all times.

(D) All wastewaters generated by the activity are lawfully disposed through a connection to a publicly owned treatment works.

(E) Such activity does not involve:

(i) Repair or maintenance of internal combustion engines, including without limitation, vehicles, or equipment associated with the vehicles.

(ii) Underground storage of any hazardous material.

(iii) Above ground storage of more than one hundred and ten (110) gallons of hazardous materials.

(5) Any activity solely involving the use of lubricating oil provided all the following conditions are satisfied:

(A) Such activity does not involve cleaning of metals with chlorinated solvents at the facility.

(B) Such activity takes place solely within an enclosed building in an area with an impermeable floor.

(C) Such hazardous material used in connection with the activity is stored in the building at all times.

(D) Such activity does not involve:

(i) Repair or maintenance of internal combustion engines, including without limitation, vehicles, or equipment associated with the vehicles.

(ii) Underground storage of any hazardous material.

(iii) Above ground storage of more than one hundred ten (110) gallons of the lubricating oil and associated hazardous waste.
(6) Any activity involving the dispensing of oil or petroleum from an above-ground storage tank or tanks with an aggregate volume of two thousand (2000) gallons or less provided all the following conditions are satisfied:

(A) Such dispensing activity takes place solely on a paved surface which is covered by a roof.

(B) The above-ground storage tank is a double-walled tank with overfill alarms.

(C) All associated piping is either above ground, or has secondary containment.

(d) Determination of a non-regulated activity.

(1) Any person proposing to carry out a non-regulated activity, as set forth in Section 4(c) of these Regulations, in an aquifer protection area must, prior to commencement of the activity notify the Agency or its duly authorized agent on a form provided by the Agency. The form must provide sufficient information to enable the Agency or its duly authorized agent to properly determine that the proposed activity is a regulated activity or a non-regulated activity within the aquifer protection area.

(2) If such activity is determined to be a non-regulated activity, then no further action under these Regulations is necessary.
SECTION 5

Activities Regulated by the State

(a) The Commissioner shall exclusively regulate activities within aquifer protection areas that are specified in §22a-354p(g) of the Connecticut General Statutes. The Agency shall regulate all other regulated aquifer activities.

Presently, §22a-354p(g) grants the Commissioner exclusive authority to regulate activities by:

(1) Any person to whom the Commissioner has issued an individual permit under the national pollutant discharge elimination system of the federal Clean Water Act (33 USC 1251, et seq.), under the state pollutant discharge elimination system pursuant to Conn. Gen. Stats. § 22a-430; any person to whom the Commissioner has issued a permit under the provisions of the federal Resource Conservation and Recovery Act (42 USC 6901, et seq.) for a treatment, storage or disposal facility.

(2) Any public service company, as defined in Conn. Gen. Stats. § 16-1, providing gas, electric, pipeline, water, or telephone service.

(3) Any large quantity generator, as defined in regulations adopted by the Commissioner under Conn. Gen. Stats. § 22a-449.

(4) Any state department, agency, or instrumentality, except any local or regional board of education.

(b) Any person conducting regulated activities that are within the authority of the Commissioner must submit an application or obtain a permit or exemption from the Commissioner prior to engaging in the activity. The Commissioner will process applications for those regulated activities.

(c) The Agency may submit an advisory decision to the Commissioner for consideration on any permit regulated under this section in accordance with the Connecticut General Statutes §22a-354p(g).
SECTION 6

Application for an Exemption from Prohibition or Regulation

(a) The owner or operator of a regulated activity may seek an exemption from the Commissioner pursuant to §22a-354i-6 of the Regulations of Connecticut State Agencies. Any person seeking an exemption from the Commissioner will concurrently submit a copy of the application for an exemption to the Agency and any affected water company.

(b) The Agency may submit written comments to the Commissioner on any exemption regulated under this section in accordance with §22a-354i-6(c) of the Regulations of Connecticut State Agencies within sixty (60) days of the agency receipt of copy of the application.
SECTION 7

General Registration, Permit Application & Transfer Procedures

(a) All applications for permits and registrations contain sufficient information for fair and informed determinations of the issues. The Agency may request additional information from the applicant for this purpose.

(b) The day of receipt of an application for registration, permit or transfer will be the day of the next regularly scheduled meeting of the Agency, immediately following the day of submission of the application to the Agency or its duly authorized agent, provided the meeting is no earlier than three (3) business days after receipt or within thirty five (35) days after the submission, whichever is sooner (C.G.S. 22a-354p(c)).

(c) At any time during the review period, the Agency may require the applicant or registrant to provide additional information about the regulated activity. Requests for additional information will not stay the time limitations for registrations and permits as set forth in these Regulations.

(d) All permit applications and registrations will be open for public inspection.

(e) Incomplete permit applications and registrations may be denied without prejudice.

(f) No permit or registration issued under these Regulations will be assigned or transferred except with written approval by the Agency.

(g) The Agency will notify the Town Clerk of any adjoining municipality of the pendency of any application, petition, appeal, request, or plan concerning any project on any site in which:

   (1) Any portion of the property affected by a decision of the agency is within five hundred feet (500') of the boundary of the adjoining municipality.

   (2) A significant portion of the traffic to the completed project on the site will use streets within the adjoining municipality to enter or exit the site.

   (3) A significant portion of the sewer or water drainage from the project on the site will flow through and significantly impact the drainage or sewerage system within the adjoining municipality.

   (4) Water runoff from the improved site will impact streets or other municipal or private property within the adjoining municipality.

The notice will be made by certified mail within seven (7) days of the date of receipt of the application, petition, request, or plan. The adjoining municipality may appear, through a
representative, and be heard at any hearing on any the application, petition, appeal, request or plan.
SECTION 8
Registration Requirements

(a) Any person engaged in a regulated activity which substantially commenced, or was in active operation within the past five (5) years, or with respect to which a municipal building permit was issued, either before the effective date of the state aquifer protection regulations, or before the date an applicable aquifer protection area is designated on a municipal zoning district map, whichever occurs later, will register the activity in accordance with this section unless the person has pending an application for an exemption pursuant to §22a-354i-6 of the Regulations of Connecticut State Agencies.

(1) The Commissioner will process registrations for those regulated aquifer activities specified in §22a-354p(g) of the Connecticut General Statutes. The Agency will process registrations for all other regulated aquifer activities.

(2) Persons engaged in regulated aquifer activities not governed by §22a-354p(g) of the Connecticut General Statutes or as described in these Regulations must register with the Agency. The person engaged in the activity will submit an application to the Agency no later than one hundred eighty (180) days after the later of the effective date of these Regulations, or the designation the aquifer protection area pursuant to §22a-354i-2 of the Regulations of Connecticut State Agencies, whichever occurs later.

On any municipally owned site undergoing remedial action pursuant to §40 CFR 271, the person engaged in such regulated activity will submit an application within the ten (10) year period commencing on the date the applicable aquifer protection area is designated on a municipal zoning map or inland wetlands map.

Any person submitting a registration pursuant to the requirements of this subsection will simultaneously file a copy of the registration with the Commissioner, Commissioner of Public Health and the affected water company.

(b) All registrations will be provided on a form prescribed by the Agency and will be accompanied by the correct registration fee in accordance with these Regulations. The registration forms may be obtained from the Old Saybrook Town Clerk or the Agency. The registration forms will include at least the following information in writing or on maps or drawings:

(1) The name, business telephone number, street address, and mailing address of the:

A. Registrant; if the registrant is a corporation or limited partnership, the full name of the facility and the corporation or limited partnership as registered with the Connecticut Secretary of State, and any officer or governing or managing body of any partnership, association, firm or corporation.
Registration Requirements

B. Owner of the facility if different from the registrant.

C. Manager or operator overseeing the operations of the facility.

(2) The location of the facility, using street address or other appropriate method of location, and a map showing the property boundaries of the facility on a 1:24,000 scale United States Geological Survey topographic quadrangle base.

(3) An identification of the regulated activity or activities conducted at the facility, as defined in these Regulations, which regulated activity or activities will consist of any regulated activity which substantially commenced, was in active operation, or with respect to which a municipal building permit was issued within the past five years.

(4) A certification by the registrant that the subject regulated activity is in compliance with the best management practices set forth in these Regulations, as follows, signed after satisfying the statements set forth in the following certification:

“I have personally examined and am familiar with the information submitted in this registration and all attachments, and I certify, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, the submitted information is true, accurate and complete to the best of my knowledge and belief I understand that any false statement made in this document or certification may be punishable as a criminal offense under §53a-157b of the Connecticut General Statutes and any other applicable law”

(c) When deemed necessary to protect a public supply well subject to regulation under §22a-354c or §22a-354z of the Connecticut General Statutes, the Agency may:

(1) Require, by written notice, any registrant to submit for review and written approval a stormwater management plan prepared in accordance with these Regulations. If required, the stormwater management plan must be implemented by the registrant immediately upon its approval; or

(2) Require, by written notice, any registrant to submit for review and written approval the materials management plan prepared in accordance with these Regulations. If required, the materials management plan must be implemented by the registrant immediately upon its approval.

(d) If the Agency determines that an application is incomplete, it will reject the registration and notify the registrant of what additional information is required and the date by which it must be submitted.

(e) If the registration is determined complete, and the regulated activity is eligible for registration, the Agency will send written notification of the registration to the registrant. The registration
will be determined to be complete and eligible if the registrant has not otherwise received a notice of rejection from the Agency, no later than one hundred and eighty (180) days after the date the registration is received by the Agency.

(f) The following general provisions must be included in the issuance of all registrations:

(1) The Agency has relied in whole or in part on information provided by the registrant and if the information subsequently proves to be false, deceptive, incomplete, or inaccurate, the registration may be modified, suspended, or revoked.

(2) All registrations issued by the Agency are subject to and do not derogate any present or future rights or powers of the Commissioner, Agency, or municipality, and convey no rights in real estate or material nor, any exclusive privileges, and are further subject to any and all public and private rights and to any federal, state, and municipal laws or regulations pertinent to the subject land or activity.

(3) A complete registration will expire five (5) years from the date of receipt of such registration by the Agency;

(4) The registrant must apply to the Agency to renew the registration on a form prescribed by the Agency for a facility prior to expiration of the registration.

(5) If a registered regulated activity is out of business or inactive when registration renewal is required, a five (5) year allowance shall be in effect from the date the registration expires. If the registrant has not applied to renew the registration within five (5) years, the facility is no longer eligible for registration.

(g) If a regulated activity that is eligible for registration in accordance with these Regulations fails to be registered or if the registrant of an active registered activity fails to apply for renewal prior to expiration, the Commissioner or municipal aquifer protection Agency, as appropriate, may accept a late registration at their discretion, subject to the limitations of these Regulations.

(h) Any person wishing to assume the benefits under a registration for regulated activities must apply to transfer the registration on a form prescribed by the Agency and submitted to the Agency.

All current registrations will be expire on January 1, 2021, once renewed, the registrations shall be valid through January 1, 2026.
SECTION 9
Permit Requirements

(a) Any person may apply for a permit to add a regulated activity to a facility where a registered regulated activity occurs.

(b) The Agency will process permit applications for those registrants that have registered pursuant to these Regulations. The Commissioner will process permit applications for regulated activities specified in §22a-354p(g) of the Connecticut General Statutes and for those registrants that have registered pursuant to §22a-354i-7(b)(1) of the Regulations of Connecticut State Agencies.

(c) Action must be taken on permit applications within thirty-five (35) days after the completion of a public hearing or in the absence of a public hearing within sixty-five (65) days from the date of receipt of the application.

(d) An application for a permit must be made on a form prescribed by the Agency and will be accompanied by the correct application fee in accordance these Regulations. Permit application forms may be obtained from the Old Saybrook Land Use Department. Simultaneously with filing an application, the applicant will send a copy of the application to the Commissioner, the Commissioner of Public Health and the affected water company. An application must include the following information:

(1) The information as required for an application under these Regulations will be provided for the proposed regulated activity.

(2) A confirmation and certification that the existing and proposed activity:

(A) Remains and will remain in compliance with these Regulations.

(B) Will not increase the number of underground storage tanks used for storage of hazardous materials.

(C) Remains and will remain in compliance with all local, state, and federal environmental laws.

(3) A materials management plan in accordance these Regulations,

(4) A stormwater management plan in accordance with of these Regulations.

(5) The following environmental compliance information with respect to environmental violations that occurred at the facility where the regulated activities are conducted within the five (5) years immediately preceding the date of the application:
Registration Requirements

(A) Any criminal conviction involving a violation of any environmental protection law.

(B) Any civil penalty imposed in any state or federal judicial proceeding, or any penalty exceeding five thousand dollars imposed in any administrative proceeding.

(C) Any judicial or administrative orders issued regarding any the violation together with the dates, case or docket numbers, or other information which identifies the proceeding. For any the proceeding initiated by the state or federal government, the Agency may require submission of a copy of any official document associated with the proceeding, the final judgment or order.

(6) Any additional information deemed necessary by the Agency regarding potential threats to the ground water and proposed safeguards.

(7) The following certification signed by the applicant and the individual responsible for preparing the application, after satisfying the statements set forth in the certification:

“I have personally examined and am familiar with the information submitted in this document and all attachments, and I certify, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, the submitted information is true, accurate and complete to the best of my knowledge and belief. I understand that any false statement made in the submitted information is punishable as a criminal offense under §53a-157b of the Connecticut General Statutes and any other applicable law.”

(e) The Commissioner of Environmental Protection, the Commissioner of Public Health, or any affected water company may submit written comments to the Agency, no later than thirty (30) days after receiving a copy of an application for a registration or permit. The Agency will give due consideration to any comments and will provide a copy of the decision to the Commissioner of Environmental Protection, the Commissioner of Public Health, or any affected water company.

(f) To carry out the purposes of the Act, the Agency may:

(1) Grant an application as filed,

(2) Grant an application upon the terms, conditions, limitations or modifications necessary, or

(3) Deny an application.

The Agency will state upon the record the reason for its decision.
(g) The Agency may hold a public hearing on an application for a permit in accordance with these Regulations.

(h) The Agency will not issue a permit unless a complete application has been received and the applicant demonstrates to the Agency’s satisfaction that all requirements of these Regulations have been satisfied and all of the following standards and criteria have been met:

1. The proposed regulated activity will take place at a facility where a registered regulated activity occurs.

2. The proposed regulated activity will not increase the number, or storage capacity of underground storage tanks used for hazardous materials except for the replacement of an existing underground storage tank in accordance with these Regulations;

3. The materials management plan and stormwater management plan have been satisfactorily prepared in accordance with these Regulations.

4. The applicant has submitted a confirmation and certification that all regulated activities remain and will remain in compliance with all local, state and federal environmental laws in accordance with these Regulations.

5. The applicants compliance record does not indicate:

   A. Any noncompliance resulted from indifference to or disregard for the legal requirements.

   B. Unwillingness or inability to devote the resources necessary to comply and remain in compliance.

   C. Instances of noncompliance have led to serious environmental harm, harm to human health or safety, or a substantial risk of the harm.

6. The proposed regulated activity will be conducted in accordance with these Regulations.

7. The existing regulated activity is being conducted in accordance with these Regulations.

8. The certification required under these Regulations has been signed by the applicant and the individual responsible for preparing the application.

(i) The Agency may impose reasonable conditions or limitations on any permit issued under this section to assure protection of the ground water, including, but not limited to the following:

1. Best management practices in addition to those set forth in these Regulations.

2. Ground water monitoring.
The following general provisions will be included in the issuance of all permits:

(1) The Agency has relied in whole or in part on information provided by the applicant and if the information subsequently proves to be false, deceptive, incomplete or inaccurate, the permit may be modified, suspended or revoked.

(2) All permits issued by the Agency are subject to and do not derogate any present or future rights or powers of the Commissioner, Agency, or municipality, and convey no rights in real estate or material nor any exclusive privileges, and are further subject to any and all public and private rights and to any federal, state, and municipal laws or regulations pertinent to the subject land or activity.

(3) The permit will expire ten (10) years from the date of issuance of the permit by the Agency.

(4) A person must apply to the Agency to renew the permit on a form prescribed by the Agency prior to expiration of the permit. This renewal will be granted upon request by the Agency unless a substantial change in the permitted activity is proposed, or enforcement action with regard to the regulated activity has been taken, in which case, a new permit application must be submitted and reviewed in accordance with the provisions of this section.

(k) The Agency will notify the applicant or permittee within fifteen (15) days of the date of the decision by certified mail, return receipt requested, and the Agency will cause notice of its order in issuance or denial of a permit to be published in a newspaper having a general circulation in the municipality in which the aquifer protection area is located.

(l) A permittee may request a modification of a permit from the Agency. This request will be on a form prescribed by the Agency, and will include the facts and reasons supporting the request. The Agency may require the permittee to submit a new application for a permit or renewal in lieu of a modification request.

(m) A person wishing to assume the benefits under a permit for regulated activities must apply to transfer the permit on a form prescribed by the Agency and submitted to the Agency.
SECTION 10

Public Hearings Regarding Permit Applications

(a) If the Agency decides to hold a public hearing regarding an application for a permit to conduct a regulated activity within an aquifer protection area, the hearing must commence no later than sixty-five (65) days after the receipt of the application.

(b) Notice of the hearing will be published at least twice at intervals of not less than two (2) days, the first not more than fifteen (15) days and not fewer than ten (10) days, and the last not less than two (2) days before the date set for the hearing in a newspaper having general circulation in each Town where the affected aquifer, or part thereof is located.

(c) The Agency will send to any affected water company, at least ten (10) days before the hearing, a copy of the notice by certified mail, return receipt requested. Any affected water company may, through a representative, appear and be heard at any the hearing.

(d) All applications, maps, and documents relating thereto will be open for public inspection.

(e) At the hearing any person or persons may appear and be heard.

(f) The hearing must be completed within forty-five (45) days of its commencement.

(g) In reaching its decision on any application after a public hearing, the Agency will base its decision on the record of that hearing. Documentary evidence or other material not in the hearing record will not be considered by the Agency in its decision.

(h) The applicant or permittee will be notified of the Agency’s decision in accordance with these Regulations.
SECTION 11

Bond & Insurance Relevant to Permit Applications

(a) An applicant may be required to file a bond as a condition of the permit.

(b) Any bond or surety will be conditioned on compliance with all provisions of these regulations and the terms, conditions and limitations established in the permit.
SECTION 12
Best Management Practices

(a) Every regulated activity must be conducted in accordance with the following:

(1) Hazardous materials may be stored above ground within an aquifer protection area only in accordance with the following conditions:

(A) Hazardous material must be stored in a building or under a roof that minimizes stormwater entry to the hazardous material storage area, except that a roof is not required for a bulk storage facility as defined in these Regulations.

(B) Floors within a building or under a roof where hazardous material may be stored must be constructed or treated to protect the surface of the floor from deterioration due to spillage of any the material.

(C) A structure which may be used for storage or transfer of hazardous material will be protected from stormwater run-off and ground water intrusion.

(D) Hazardous material will be stored within an impermeable containment area capable of containing at least the volume of the largest container of the hazardous material present in the area, or ten percent (10%) of the total volume of all the containers in the area, whichever is larger, without overflow of released hazardous material from the containment area.

(E) Hazardous material will not be stored with other hazardous materials that are incompatible and may create a hazard of fire, explosion, or generation of toxic substances.

(F) Hazardous material must be stored only in a container that has been certified to meet state or federal specifications for containers suitable for the transport of the material.

(G) Hazardous material must be stored only in an area that is secured against unauthorized entry by the public.

(H) The requirements of this subdivision are intended to supplement, and not to supersede, any other applicable requirements of federal, state, or local law, including applicable requirements of the Resource Conservation and Recovery Act of 1976.

(2) No person will increase the number of underground storage tanks used to store hazardous materials.
(3) An underground storage tank used to store hazardous materials will not be replaced with a larger tank unless

(1) There is no more than a twenty-five percent (25%) increase in volume of the larger replacement tank.

(2) The larger replacement tank is a double-walled tank with co-axial piping, both meeting new installation component standards pursuant to §22a-449(d)-1(e) and §22a-449(d)-102 of the Regulations of Connecticut State Agencies, and with interstitial monitoring.

(4) No person will use, maintain or install floor drains, dry wells or other infiltration devices or appurtenances which allow the release of waste waters to the ground, unless the release is permitted by the Commissioner in accordance with §22a-430 or §22a-430b of the Connecticut General Statutes.

(5) A materials management plan must be developed and implemented in accordance with the following:

(A) A materials management plan will contain, at a minimum, the following information with respect to the subject regulated activity:

(i) A pollution prevention assessment consisting of a detailed evaluation of alternatives to the use of hazardous materials or processes and practices that would reduce or eliminate the use of hazardous materials, and implementation of alternatives where possible and feasible.

(ii) A description of any operations or practices which may pose a threat of pollution to the aquifer, which will include the following:

(aa) A process flow diagram identifying where hazardous materials are stored, disposed and used, and where hazardous wastes are generated and subsequently stored and disposed.

(bb) An inventory of all hazardous materials that are likely to be or will be manufactured, produced, stored, utilized or otherwise handled.

(cc) A description of waste, including waste waters generated, and a description of how the wastes are handled, stored and disposed.

(iii) The name, street address, mailing address, title and telephone number of the individual(s) responsible for implementing the materials management plan and the individual(s) who should be contacted in an emergency.
(iv) A record-keeping system to account for the types, quantities, and disposition of hazardous materials which are manufactured, produced, utilized, stored, or otherwise handled or which are discharged or emitted; the record-keeping system must be maintained at the subject facility and will be made available on the premises for inspection during normal business hours by the Commissioner and the municipal aquifer protection agency.

(v) An emergency response plan for responding to a release of hazardous materials. This plan will describe how the release could result in pollution to the underlying aquifer and will set forth the methods used or to be used to prevent and abate any the a release.

(B) When a materials management plan is required under these Regulations, the materials management plan must be completed and certified by a professional engineer (aquifer) or a certified hazardous materials manager, or, if the facility where the regulated activity is conducted has received and maintained an ISO 14001 environmental management system certification, then the registrant may complete and certify the materials management plan.

(C) The materials management plan must be maintained at the subject facility and will be made available thereat for inspection during normal business hours by the Commissioner and the municipal aquifer protection agency.

(b) The development and implementation of a stormwater management plan required for regulated activities in accordance with these Regulations will be as follows:

A stormwater management plan will assure that stormwater run-off generated by the subject regulated activity is:

A. Managed in a manner to prevent pollution of ground water.

B. Must comply with all of the requirements for the General Permit of the Discharge of Storm Water associated with a Commercial Activity issued pursuant to §22a-430b of the Connecticut General Statutes.
SECTION 13

Other State, Federal and Local Laws

(a) Nothing in these regulations will obviate the requirement for the applicant to obtain any other assents, permits or licenses required by law or regulation by the Town of Old Saybrook, State of Connecticut and the Government of the United States including any approval required by the Connecticut Department of Environmental Protection and the U.S. Army Corps of Engineers and the United States Environmental Protection Agency. Obtaining the assents, permits, or licenses are the sole responsibility of the applicant.

(b) No person will conduct any regulated activity within an aquifer protection area which requires zoning or subdivision approval without first having obtained a valid certificate of zoning compliance, subdivision approval, special permit, special exception or variance, or other documentation establishing that the proposal complies with the Town of Old Saybrook’s Zoning Regulations.
SECTION 14

Enforcement

(a) The Agency may appoint a duly authorized agent to act in its behalf with the authority to issue notices of violation or cease and desist orders.

(b) The Agency or its agent may make regular inspections, except at private residences, at reasonable hours, of all regulated activities for which permits or registrations have been issued by these regulations. The provisions of these Regulations will be enforced by the agent or agents appointed by the Agency.

(c) If the Agency or its duly authorized agent finds that any person is conducting or maintaining any activity, facility, or condition that violates any provision of these regulations, the Agency or its duly authorized agent may:

(1) Issue a notice of violation.

(A) The notice of violation will state the nature of the violation, the jurisdiction of the Agency, and the necessary action required to correct the violation including without limitation halting the activity in the aquifer protection area.

(B) The Agency may request that the person appear at the next regularly scheduled meeting of the Agency to discuss the unauthorized activity, and/or provide a written reply to the notice or file an application for the necessary permit or registration. Failure to carry out the action(s) directed in a notice of violation may result in issuance of an order under these Regulations or other enforcement proceedings as provided by law.

(2) Issue a written order

(A) The order will be issued by certified mail, return receipt requested to the person conducting the activity or maintaining the facility or condition to cease the activity immediately or to correct the facility or condition. The Agency will send a copy of the order to any affected water company by certified mail, return receipt requested.

(B) Within ten (10) days of the issuance of the order the Agency will hold a hearing to provide the person an opportunity to be heard and show cause why the order should not remain in effect. Any affected water company may testify at the hearing. The Agency will consider the facts presented at the hearing and, within ten (10) days of the completion of the hearing, notify the person by certified mail, return receipt requested, that the original order remains in effect, that a revised order is in effect, or that the order has been withdrawn.

(3) Suspend or revoke registration or permit.

(A) The Agency may suspend or revoke a registration or a permit if it finds, after
hearing, that the registrant or permittee has not complied with the terms, conditions or limitations set forth in the registration or the permit. Prior to revoking or suspending any registration or permit, the Agency will issue notice to the registrant or the permittee, personally or by certified mail, return receipt requested, setting forth the facts or conduct that warrants the intended action.

(B) The Agency will hold a hearing to provide the registrant or permittee an opportunity to show that it is in compliance with its registration or permit. The Agency will notify the registrant or permittee of its decision by certified mail within fifteen (15) days of the date of its decision. The Agency will publish notice of a suspension or revocation in a newspaper having general circulation in the Town of Old Saybrook.

(c) An order issued pursuant to the Regulations will be effective upon issuance, will remain in effect until the Agency affirms, revises, or withdraws the order, and will not delay or bar an action pursuant to these Regulations.

(d) A court may assess criminal and or civil penalties to any person who commits, takes part in, or assists in any violation of any provision of these Regulations in accordance with the Connecticut General Statutes.
SECTION 15
Adoption

Effective Date Section Description
January 7, 2008 ADOPTION OF REGULATIONS

Effective Date Location
January 7, 2008 Adopt Level A Holbrook Well field Mapping on the Zoning Map of the Town of Old Saybrook

Amendments

(a) These regulations may be amended, changed, or repealed in accordance with the Connecticut General Statutes.

(b) If a complete application is filed with the Agency that is in conformance with these Regulations as of the date of its filing, then the permit issued will not be required to comply with any changes in regulations taking effect on or after the filing date. The provisions of this section will not apply to the establishment, amendment, or change of the boundaries of the aquifer protection area or to any changes to the Regulations necessary to make the regulations consistent with chapter 446i of the Connecticut General Statutes as of the date of the Agency’s decision.

Effective Date Section Description
April 1, 2011 4(b)(3) ADD: Timeline for regulated activities for municipal properties undergoing remedial action.

8(a) ADD: Timeline for registrations of municipal properties undergoing remedial action.

Effective Date Location
April 1, 2011 Adopt Level A Saybrook Well field Mapping on the Zoning Map and Wetlands Map of the Town of Old Saybrook

December 6, 2021 Section 18(d) REMOVE fees and ADD Application fees are set forth in Chapter 118 of the Town Code.
SECTION 16

Appeals

(a) Appeal of the Agency’s regulation, order, decision or action will be made in accordance with §22a-354q of the Connecticut General Statutes.

SECTION 17

Conflict and Severance

(a) If there is a conflict between differing provisions of these Regulations, the provision that imposes the most stringent standards will govern. The invalidity of any word, clause, sentence, section, part, subsection, subdivision, or provision of these regulations will not affect the validity of any other part that can be given effect without the valid part or parts.

If there is a conflict between of these Regulations and the Act, the provisions of the Act will govern.

SECTION 18

Registration & Permit Fees

(a) All fees required by these regulations will be submitted to the Agency by cash, check or money order payable to the Town of Old Saybrook, at the time the registration or permit application is filed with the Agency.

(b) No registration or permit application will be granted or approved by the Agency unless the correct registration/application fee is paid in full or unless a waiver has been granted by the Agency pursuant to these Regulations.

(c) The registration or permit application fee is nonrefundable.

(d) Application fees are set forth in Chapter 118 of the Town Code.

(e) Boards, commissions, councils, and departments of the Town of Old Saybrook are exempt from all fee requirements.

(f) The registrant or applicant may petition the Agency to waive, reduce, or allow delayed payment of the fee. The petitions will be in writing and will state fully the facts and circumstances the
Agency should consider in its determination under this subsection. The Agency may waive all or part of the applications fee if it determines that:

(1) The activity applied for would clearly result in substantial public benefit to the environment or to the public health and safety and the registrant or applicant would be reasonably be deterred from initiating the activity solely or primarily because of the amount of the registration or permit application fee.

(2) The amount of the registration or permit application fee is clearly excessive in relation to the cost of the Town for reviewing and processing the application.

The Agency will state upon its record the basis for all actions under this section.

SECTION 19
Effective Date of Regulations

(a) These Regulations, Map boundaries, and amendments will become effective upon:

(1) The Commissioner’s determination that these Regulations are reasonably related to the purpose of ground water protection and not inconsistent with the Regulations of the Connecticut State Agencies and upon filing with the Office of the Town Clerk.
