IV. NEW BUSINESS

A. “Classic Carriage Car Wash” Preliminary Discussion Parking Calculations

Proposed convenience store and reconfiguration of gas pumps

351 Boston Post Road, Assessor’s Map 42, Lot 10-1, Business B-4 District  
Property Owner: Injun, LLC.  
Agent/Owner: John Pytlik
Justin Pytlik presented for the applicant. It’s been thirty years since they’ve updated and would like to expand by building a 2,000 square foot convenience store (they will take out the booth and drive-up window) and add another gas pump. They will have approximately 20 parking spots not including pump spots and will install two electric car charger stations. Due to renovations canopy will get wider. They will change their sign to an electronic one to update gas prices. The Commission agreed to the one space per 100 s.f. for the parking calculations for the convenience store.

The Zoning Commission has asked for a plan to make traffic flow better and safer. With new canopy only recessed lighting can be used. Any pole lighting must be 14 feet or less and the top of the pole light must be shielded. The sign cannot have any flashing light. The Commission also reminded the applicant that a logo is considered a sign and they must work with zoning to stay within regulations.

B. “Stop & Shop” Preliminary Discussion: Addition of On-Line Pick-Up Service

665 Boston Post Road, Assessor’s Map 36, Lot 103, Business B-2 District, Ped. Node
Property Owner: Old Saybrook Associates, LLC. Agent: Christina Moreau, Agnoli Sign Co. Inc

Christina Moreau presented for the applicant. Stop&Shop is offering an online pick-up service and would like to install parking signage on concrete bases and directional signage in the parking lot to direct the public where to park, call and pick-up their groceries. They are proposing to install eight (8) 24” x 36” single face parking signs on 250 LB cement bases along with four (4) 24” x 18” directional signs. They will be taking down the Peapod lockers and will designate four more parking spots to this pick-up service. The Zoning Commission allows up to four signs per property. They have suggested using four two-sided signs for the eight spots and eliminating the directional signs.

C. “Mexican Restaurant” Preliminary Discussion

709 Boston Post Road, Assessor’s Map 36, Lot 101, Business B-2 Distric, Ped. Node
Property Owner: John & Judith Cacase Prospective Tenant: Italio Arevalo

Italio Arevalo presented. He would like to open a Mexican restaurant that will be open seven days a week with the hours of 11 - 9 p.m. Monday through Friday, and 11 – 7 p.m. on Sunday with approximately 20 seats for in-house dining. There will be limited cooking done on location as most of the cooking will be done in his other restaurant in Groton and frozen for transport. The restaurant will use disposable plates and cutlery. Building owner John Cacase requests that a grease trap be installed.

The Zoning Commission requires a special exception application since this is a full-service restaurant. They would also like to see site improvements done to the property. Parking and landscaping would need to be surveyed and updated in order to issue the permit.

V. PUBLIC HEARINGS

Chairman R. Friedmann has opened the public hearing.

A. Petition to Amend the Old Saybrook Zoning Regulations to delete Section 65 Excavation & Grading and add new Special Standard to Section 53 Material Removal, Filling & Excavation.

Petitioner: Old Saybrook Zoning Commission

The petition proposes to delete current Section 65, Excavation & Grading, and add new special standards to Section 53 concerning “material removal, filling and excavation.” The new standards will require the issuance of a Special Permit for the placement or removal of 100 or more cubic yards of material on a lot in any calendar year. The standards also provide exemptions from the need for a Special Permit under certain conditions and for certain activities.

Positive referrals were received from RiverCog, the Planning Commission, the Economic Development Commission and CT DEEP.

The Zoning Commission reviewed recommendations from the Planning Commission and determined that they would like “any other material” left in and add their recommendation to add types of earth. The Commission amended wording to state “100 or less” cubic yards, or “100 or more” cubic yards. The ZC has not received feedback from any adjacent towns.
The Gateway Commission has requested a continuance so that they can review and decide on these regulations at their next meeting.

**MOTION** to continue public hearing at the next Zoning Commission meeting on Monday, Feb. 3, 2020, at 7:00 p.m., at Town Hall, 302 Main Street 1st Floor Conference Room, Old Saybrook as presented MADE: R. Friedmann SECONDED: G. Lewis VOTING IN FAVOR: R. Friedmann, G. Lewis, M. Fish, M. Delmonico, Ram Odedra ABSTAINING: None OPPOSED: None APPROVED: 5-0-0.
