## Chapter 181. SOLID WASTE

### Article V. Enforcement and Penalties

#### § 181-12. Penalties for offenses.

- A. Except as otherwise provided in this chapter, any person who violates the terms of this chapter or any regulations intended to implement this chapter shall be fined not more than \$100 for each offense, in addition to any other penalty that may be imposed by law.
- B. Notwithstanding the provisions of § **181-9A**, any refuse collector who knowingly mixes recyclables with solid waste shall for a first violation be liable for a civil penalty of \$1,000 for each subsequent violation. Should the provisions of C.G.S. § 22a-220a be amended, the penalties for knowingly mixing recyclables with solid waste shall be the maximum penalty permitted by that statute.
- C. Notwithstanding § **181-9A**, in the event that a residential generator violates this chapter or the Regulations, he or she will receive a written warning for the first offense. He or she may thereafter be fined \$25 for each subsequent offense and shall lose the right to use Town disposal facilities until such fine is paid.

#### § 181-13. Enforcement.

Except as otherwise specified in this chapter, the Director shall enforce all provisions of this chapter and the Regulations as they apply both to solid waste that is transported to the system or destinations outside of the municipality and that which is deposited in Town at the Old Saybrook transfer station or bulky waste disposal area.

#### § 181-14. Security.

The Authority and/or the Director may require any licensee to post a letter of credit, bond or such other security as may reasonably be required to protect the Town of Old Saybrook and/or the Authority, as the case may be, from the nonpayment of any money owed to either the Town or the Authority.

#### § 181-15. Damages.

- A. By accepting a license issued under this chapter or the Regulations, the licensee agrees to hold the Town of Old Saybrook and the Authority harmless from loss, damage or injury arising from the delivery of unacceptable or hazardous wastes to the transfer station. The Director, in conjunction with the Authority, shall establish such procedures as may be

appropriate to protect the transfer station, the system, and their operators and employees from injury or damage arising from such deliveries.

- B. Any person entering Town waste disposal facilities shall be construed to be on the premises at his or her own risk and the Town shall not be legally liable for any injuries or damages occurring to such person or his or her property while on said premises.
